

AlkaGel

Sprayable Gelled Caustic Detergent

AlkaGel is a gelled caustic detergent suitable for tackling the most difficult soils on bar-b-ques, ovens, smokehouses and fryers. Its extremely high level of caustic and detergent will cut through and breakdown heavy carbon, oil and grease. Combined with its unique spray-gel consistency, AlkaGel can be easily sprayed onto surfaces where it then thickens on the surface to cling and maximize dwell time.

- **Super-Concentrated Caustic Gel**
- **Allows Extra Long Contact Time**
- **Cuts Through the Heaviest Carbon, Grease & Oil**
- **Rinses Away Easily**

Usage Directions: AlkaGel can be used cold, but works best when heated or applied to hot surfaces. Dilute in accordance with chart below. Apply AlkaGel to surface with sprayer, sponge or brush. Allow time for AlkaGel to penetrate and dissolve all soils. AlkaGel can sit on surfaces for up to an hour, or longer to maximize cleaning performance.

Safety & Hazards

Wear Protective Eye Glasses, Chemical-Resistant Gloves and Waterproof Apron While Using AlkaGel

Consult MSDS for Further Safety Precautions

DOT Shipping Name: Potassium Hydroxide Solution, 8, UN 1814, PG II

AlkaGel Dilution Guidelines

Usage	Dilution
Extra Heavy Duty	Do Not Dilute. Use As-Is.
Heavy Duty	Dilute Up to 50:50 with Water.
Light Grease & Oil	Mix 1 Part with 3 Parts Water

Technical Information:

Appearance: Viscous Yellow Liquid
Odor: Pungent
pH: >13.0
Foam: Low Foam

Associated Products:

FCC-3, Foaming Chlorinated Detergent With Caustic & Rinse Agents
Fry Out, Heavy-Duty Caustic Detergent
Detergent Concentrate, Heavy Duty Detergent & Foam Booster
MG 4-Quat, 5th Generation Quaternary Sanitizer & Disinfectant

Warning: Do Not Mix With Acidic Products. May Damage Painted Surfaces, Aluminum, Brass, Copper, Galvanized And/Or Other Soft Metals.
