

Biodisan Plus

Iodine-Based Fungicide, Deodorizer, Sanitizer

A One-Step Cleaner/No-Rinse Sanitizer/Disinfectant in: Veterinary Clinics, Commercial Egg Processors, Dairy & Poultry Farms, Meat & Poultry Plants ◊ Food Processing Plants, Kennels, Pet Shops & Zoos, Hand Sanitizing in Food Plants and Animal Handling Facilities

- Iodine-Based Sanitizer
- Effective Hand Dip Solution
- Cleans & Sanitizes in One Step
- No-Rinse Sanitizer (25ppm)

Usage Directions: Biodisan Plus is tuberculocidal when used in hard water (up to 400 ppm as CaCO₃) on precleaned surfaces at 20°C for a contact time of 10 minutes. Prepare a solution of 3 ounces Biodisan Plus to 5 gallons water (provides 75 ppm titratable iodine). See product label for full list of uses.

Safety & Hazards

Wear Protective Eye Glasses and Chemical-Resistant Gloves While Using Biodisan Plus
