

# CIP 150

## Chlorinated CIP Detergent

CIP 150 is a liquid, non-foaming, chlorinated CIP detergent useful on a wide variety of soils including juices, dairy, grease, blood and other difficult food soils. Cleans, destains and deodorizes most food processing equipment. This product is non-foaming, but can be combined with foam boosters for foam cleaning. Contains alkaline builders, water conditioners and sequestering agents, inorganic emulsifiers, and hypochlorite.

- **High-Alkalinity**
- **Hard-Water Tolerant**
- **Contains Bleach**
- **Non-Foaming**

**Usage Directions:** Flush system with water. Prepare a solution in accordance with dilution table using hot water, up to 150°F, if compatible with system and soils. Circulate through the system until the soils are loosened and/or removed. Drain system and rinse with water. Follow with appropriate sanitizer.

### Safety & Hazards

Wear Protective Eye Glasses, Chemical-Resistant Gloves and Waterproof Apron While Using CIP 150

**Consult MSDS for Further Safety Precautions**

**DOT Shipping Name:** Corrosive Liquid, Basic, Inorganic, N.O.S., (Potassium Hydroxide, Sodium Hypochlorite), 8, UN 3266, PG II

### CIP 150 Dilution Guidelines

Usage	Dilution
General Use CIP	½ - 1 Oz per Gallon
Heavy Duty CIP	1 - 3 Oz Per Gallon

#### Titration Kit:

MRTK5000-Z, Chlorinated Alkaline Titration

### Technical Information:

Appearance: Clear Yellow Liquid  
Odor: Bleach  
pH: >12.0  
Foam: Non-Foaming

### Associated Products:
