

# CIP Special

Non-Caustic Powdered CIP Detergent with Bleach

CIP Special is a moderate-duty, low-foaming, powdered CIP detergent for use in canneries, dairies, bakeries, fish processing plants, wineries, vegetable processing plants, meat and poultry plants, institutional kitchens, breweries, supermarkets, egg processing plants, and restaurants. Concentrated alkali for moderate to heavy-duty cleaning jobs and chlorinated for better cleaning, stain removal, and deodorizing. Authorized by USDA for use in all departments of federally-inspected food processing plants, in CIP applications, COP tanks or steam or mechanical cleaning devices.

- **Non-Caustic, Chlorinated-Alkaline Detergent**
- **Rinses Completely**
- **Low-Foaming Powder**
- **Effective on a Wide Variety of Soils**

**Usage Directions:** Dilute CIP Special in accordance with chart below. CIP Special can be used with cold water, but works best with hot water in most applications.

- A) For Use In Steam Cleaner Or High-Pressure Washer: Prerinse surfaces with fresh water. Spray CIP Special solution on soiled areas. Rinse thoroughly and follow with appropriate sanitizer.
- B) For Use In COP Tanks or Processing Vats: Prerinse surfaces with fresh water. Soak parts in CIP Special solution. Allow sufficient time for stubborn soils to be loosened. Remove from solution and brush surfaces as necessary. Rinse with fresh water and apply appropriate sanitizer.
- C) C.I.P. Procedures: Flush system with cold water. Circulate CIP Special solution through system until soils are loosened and/or removed as determined by inspection. Drain and rinse thoroughly with potable hot water. Follow with appropriate sanitizer.

## Safety & Hazards

Wear Protective Eye Glasses, Chemical-Resistant Gloves, Dust & Vapor Respirator and Waterproof Apron While Using CIP Special

**Consult MSDS for Further Safety Precautions**

**DOT Shipping Name:** Corrosive Solid, Basic, Inorganic, N.O.S., (Sodium Metasilicate), 8, UN 3262, PG II

## CIP Special

Dilution Guidelines

Usage	Dilution
Steam Cleaning / Pressure Washing	2 - 4 Ounces Per Gallon
COP or Soak Applications	4 - 8 Ounces Per Gallon
CIP Applications	1 - 4 Ounces Per Gallon

## Technical Information:

Appearance: Free-Flowing White Powder  
Odor: Light Chlorine  
pH: 11-12  
Foam: Non-Foaming

Available Chlorine: 180ppm @ 1 Ounce per Gallon

## Associated Products:

FCC-3, Foaming Chlorinated Detergent With Caustic & Rinse Agents

Dissolve Foaming Acid Cleaner, High-Foaming Phosphoric & Nitric Acid Detergent

MG 4-Quat, 5th Generation Quaternary Sanitizer & Disinfectant

MG Peracid 6, 5.6% Peroxyacetic Acid Sanitizer

Warning: Do Not Mix With Acidic Products. May Damage Painted Surfaces, Aluminum, Brass, Copper, Galvanized And/Or Other Soft Metals.
