

MG 500

All-Metal Safe Degreaser

MG 500 is a liquid multi-purpose cleaner & degreaser effective in a broad range of applications including industrial, janitorial, maintenance & food processing. MG 500's combination of emulsifiers, alkaline builders and water-soluble solvents is effective for degreasing or removing oily deposits from a wide range of automotive and industrial equipment, including engines and parts, chassis, textile equipment, machine shop equipment, tools and presses. MG 500 is also an effective floor cleaner.

- **All-Metal Safe Formulation**
- **Moderate Alkalinity, Non-Caustic**
- **Contains Water-Soluble Solvents to Emulsify Heavy Oils**

Usage Directions: Dilute MG 500 in accordance with chart below. MG 500 works best when heated to 120 - 140°F. If using in a parts washer, soak parts in solution for sufficient time to penetrate completely. Use a medium-stiff bristled brush to dislodge heaviest soils. In other applications, apply MG 500 solution with sprayer, brush, mop or other suitable method.

Safety & Hazards

Wear Protective Eye Glasses and Chemical-Resistant Gloves While Using MG 500

Consult MSDS for Further Safety Precautions

DOT Shipping Name: Not Regulated

Technical Information:

Appearance: Clear, Blue Liquid
Odor: Butyl
pH: >12.0
Foam: Moderate Foam

MG 500

Dilution Guidelines

Usage	Dilution
Metal Cleaning	1 Part MG 500 to 5 Parts Water
General Purpose Cleaning & Degreasing	1 Part MG 500 to 10 - 20 Parts Water
Floor Cleaner (Automatic Scrubber)	1 Part MG 500 to 10 Parts Water
Engines & Garage Floors	1 Part MG 500 to 5 Parts Water

Titration Kit:

MRTK5000-Z, Alkalinity Titration

Warning: Do Not Mix With Acidic Products.

Products Manufactured By:
