

Special Acid Cleaner

Heavy-Duty Acid Detergent and Descaler

Special Acid Cleaner is an aggressive acidic detergent useful in the removal of built-up calcium, protein, hard-water and other similar deposits. This product is commonly used as an acidic detergent for food processors to maintain equipment and utensils. Special Acid Cleaner is formulated using a time-tested acid formulation that begins dissolving calcium, sodium and protein on contact. Methods of use include soak, scrub and spray washing. Special Acid Cleaner is effective in cold water

- **Non-Foaming**
- **Removes Protein, Sodium, Calcium & Hard Water Deposits**
- **Easy Rinsing**
- **Acid Detergent**
- **Effective in Cold & Hard Water**

Usage Directions: Dilute Special Acid Cleaner in a separate container in accordance with chart below. A small amount of Detergent Concentrate can be added if foaming properties are desired. Rinse surface to be cleaned to remove any loose soils. Apply Special Acid Cleaner to a small area to test for compatibility and desired results before widespread use. Special Acid Cleaner solution can be applied with foamer, sprayer, sponge, or brush. For best results start at the bottom of the surface and work up to the top. Allow solution to penetrate and dissolve built-up soils. More than one application may be required and some scrubbing may be necessary to remove exceptionally heavy soils. Rinse surface from top to bottom with fresh water. Residual acidity can be neutralized with a mild alkaline, like Soda Ash.

Safety & Hazards

Wear Protective Eye Glasses, Chemical-Resistant Gloves and Waterproof Apron While Using Special Acid Cleaner

Consult MSDS for Further Safety Precautions

DOT Shipping Name: Corrosive Liquid, Acidic, Inorganic, N.O.S., (Nitric Acid, Phosphoric Acid), 8, UN 3264, PG II

Special Acid Cleaner

Dilution Guidelines

Usage	Dilution
Extremely Heavy Build-Up	10 Oz Per Gallon
Heavy Build-Up	5 Oz per Gallon
Normal Usage	3 Oz per Gallon

Titration Kit:

MRTK1005-Z, Acidity Titration

Technical Information:

Appearance: Pink Liquid
Odor: None
pH: <2.0
Foam: Non-Foaming

Associated Products:

MG 4-Quat, 5th Generation Quaternary Sanitizer & Disinfectant
MG ChlorSan, 12.5% Sodium Hypochlorite Sanitizer
FCC-2, Heavy Duty Foaming Chlorinated Detergent With Caustic
103-F, Foaming Degreaser With Caustic

Warning: This Product Contains An Oxidizing Acid And Will React With Certain Surfaces, I.e. Brass, Copper, Iron And Galvanized Metal. Do Not Mix With Alkaline Or Chlorinated Products.
